

ADVANTAGES

- Easy to install and maintain
- Simple cartridge replacement using quick-release cam bars
- Up to 25% smaller
- High collector efficiency using HemiPleat® cartridges
- Modular design for optimum flexibility
- Customized for original equipment manufacturers (OEM)

Application

The Gold Series® cartridge dust and fume collectors may be used for a wide range of pollution control and product recovery applications including: blasting, chemical processing, pharmaceutical manufacturing processes, fiberglass and FRP, food processing, laser/plasma cutting, paper scrap, rubber grinding, seed processing, mining, thermal spray and more. Contact Camfil for more information.

Comment

Options: A wide variety of options are available including explosion venting, special inlet designs, BIBO (bag-in/bag-out) for pharmaceutical applications, custom colors, stainless steel construction, alternative hopper designs, etc. Please contact us with your specific requirements.

Cartridges: Vertically mounted to shed dust readily for efficient cleaning and longer service life. High filtration efficiency meeting the 5 mg/m³ or fewer emissions required to re-circulate the air back into the workplace on non-hazardous dusts
